Posters will be on display throughout the Regional, State, and Local Initiatives in Nanotechnology Workshop, beginning in the evening on Wednesday, April 1. The poster session is your opportunity to highlight the nanotechnology activities of your initiative or organization, and will be a good starting point for important conversations between attendees.

We invite submissions from all registered workshop participants, and request that they fit to the following requirements:

Posters should be suitable for display on a 48" x 48" backboard. Appropriate common sizes include 30" x 40" and 34" x 44" (E-Size). Please make sure that your title and affiliation are clearly displayed.

Please email RSL09@nnco.nano.gov with any questions or concerns.
